

Please do not pass this docket. If you allow the Commercial consumer market to utilize this spectrum space for part 15 devices it could Threaten all HF Radio traffic include Ham Radio, Shipping and Aircraft as well as military communications. I am truly against the Docket 03-104 BPL/PLC. Please defeat it for the sake of safety. If there is a disaster Vhf is great locally but HF is Golden. Please Protect whats left of the HF spectrum.

Thank You

Robert Azanow KA1KIJ
